PORTOFOLIO

Berikut adalah beberapa project yang telah saya kerjakan selama kuliah.

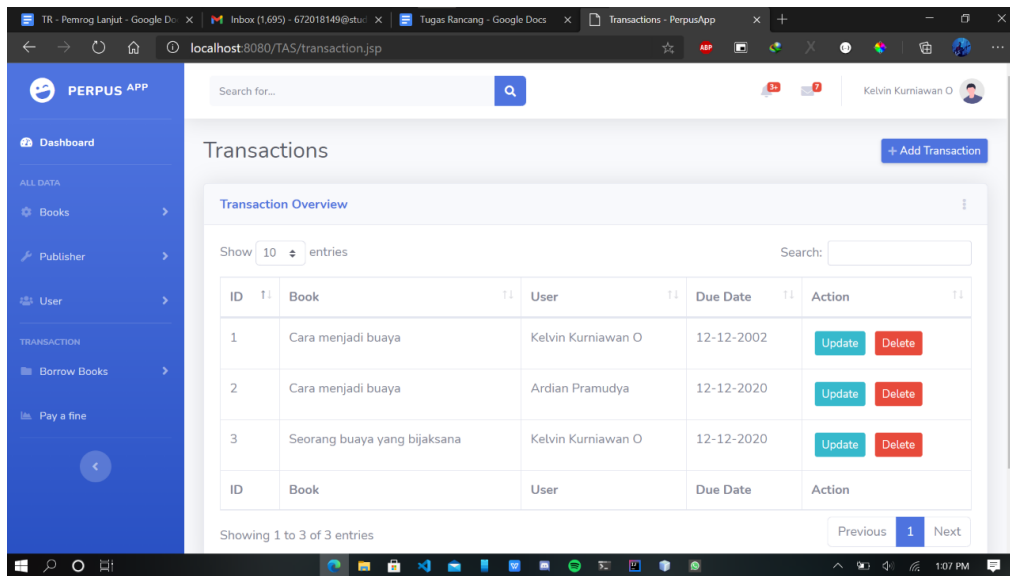

WEBSITE PERPUSTAKAAN MENGGUNAKAN JAVASCRIPT

The screenshot shows the 'PERPUS APP' Books page. The left sidebar is identical to the dashboard. The main content area features a 'Books' section with a '+ Add Book' button. Below this is a 'Book Overview' table with a search bar and a 'Show 10 entries' dropdown. The table has columns: ID, ISBN, Title, Author, Publisher, Availability, Stock, and Action. The first entry is for a book with ISBN 7654321234567, Title 'Cara menjadi buaya', Author 'Kelvin Kurniawan', and Publisher 'null'. The Action column contains 'Update' and 'Delete' buttons. The table is currently showing 1 of 1 entries.
